

# ERUS23

20th Meeting of the EAU Robotic Urology Section

13-15 September 2023, Florence, Italy

[www.erus23.org](http://www.erus23.org)

erus esu eau European Association of Urology

## Rules for online abstract submission:

**Before entering the abstract submission system you are requested to carefully read the following rules.**

After having read the rules press **I AGREE**.

*(These rules will remain available to you on the right side of the submission page)*

## Submission requirements

- By accessing and/or using this online submission system you agree (also on behalf of co-authors) to the rules as set out below.
- Only abstracts submitted through this official online submission system will be considered.
- Abstracts must be submitted in English. This applies also to the title, text body and author affiliations.
- Authors may submit more than one abstract but are asked to exercise reasonable restraint.
- Please note that transfer of copyright applies to all material submitted through this online system.

## Originality

Abstract(s) may not have been published before the start of the ERUS23 meeting on 13 September 2023 (exception can be made for abstracts accepted in the last 12 months for meetings other than EAU meetings).

You are allowed to submit abstracts that have been submitted for other meetings as well, but only if they have not been accepted during previous ERUS meetings.

## Display

All accepted abstracts will be on display in the exhibition as an e-poster or video during ERUS23 from 13 to 15 September 2023. Among the accepted abstracts, the best abstracts will be selected and the presenting authors will be invited to present their abstract during the ERUS23 scientific programme.

## Copyright & Publication

The accepted abstracts of ERUS23 are going to be published online in the ERUS23 Resource Centre, in the ERUS23 app and as an online supplement by Elsevier on European Urology Open Science. If you do not want your poster(s) or video(s) published online please notify us before 1 month prior to the meeting by e-mail to [erus@congressconsultants.com](mailto:erus@congressconsultants.com)

Copyright of the abstract(s) is assigned to the European Association of Urology and any conflicts with any other scientific association will be the sole responsibility of the author(s).

## **System requirements**

We recommend using Google Chrome (latest version) for the best experience.

## **Size**

The size of the abstract is limited to 3,000 characters (this includes title, body of abstract, spaces, tables and images). The submission programme will automatically calculate the size of your abstract and will not allow submissions that do not fit in the size requirements.

Every image counts for 500 characters and only jpg files can be uploaded (no pdf or other files). For readability you are advised to make tables with the "insert table" tool and not upload this as an image.

## **Title**

- The title should clearly define the topic.
- There is no maximum length for the title, but the characters in the title are included in your total character count.
- The first letter of the title will automatically begin with a capital letter.
- Standard abbreviations may be used as follows: On first use spell out the full term and follow with the abbreviation in parentheses.
- Do NOT identify your institution in the title.
- Do NOT type the abstract title in capital letters.
- Do NOT end the title with a period.

## **Authorship**

Each quoted author should have contributed substantially to the represented work in terms of conceptual design or analysis, writing of the article and final approval of the article in order to take public responsibility for the content.

## **Authors**

Provide the full last and first names of all authors, omitting any titles, degrees and institutional affiliations. Please check that for authors from the same institution the name of the institution is written in the exact same way to avoid the creation of extra affiliations, which are in fact identical.

During the upload procedure, you can indicate who the presenting author will be, and this information can also be edited afterwards.

## **Affiliation**

Type the name of the institution, department, city and country. If co-authors are from the same institution, the programme will automatically copy all information into the next boxes, so that you do not have to retype all information. If co-authors are not from the same institution you can edit each box accordingly. Please make sure that the institution, department and city are written in English. The system allows authors to have only one affiliation, so in case someone works in different institutions, please indicate the main work place.

## **Body of the abstract**

State the objective of the study, describe the material and methods, summarize the results presenting sufficient details to support the conclusions reached (it is not acceptable to state: "The results will be discussed"). Use numbers to indicate values (i.e.

"6" instead of "six") and only very well-known abbreviations e.g., ml, kg, MRI... If you must use other abbreviations, you must explain the first time it appears.

The following headings have already been formatted for you and should not be entered in the text fields again:

- Introduction & Objectives
- Materials & Methods
- Results
- Conclusions

### **Proof reading**

After you have inserted all data for your abstract submission a preview will show on your screen. Please verify that your abstract submission is correct and read this preview carefully (including author information). Keep a print for your own records.

It is the responsibility of the submitting author to ensure the abstract is in perfect order with no errors in spelling or grammar, as revisions will not be accepted. Abstracts will not be corrected.

### **Editing**

Abstract bodies will be published as submitted, except for a simple English spelling check. You will be able to edit the abstract until the submission deadline. After the submission deadline there is no possibility to edit the submission text anymore.

### **Submission deadline**

Deadline for abstract submission is 14 June 2023, 23:59:59 CEST.

To avoid that your abstract can not be submitted due to technical difficulties, computer problems or other reasons, you are advised to submit your abstract on time. There is no possibility for late-breaking abstracts.

### **Notification**

The abstracts will be anonymously reviewed and sessions are composed. The outcome of the abstract selection is available online through this abstract submission website. You will receive a notification by e-mail indicating the exact date.

### **Cancellation, withdrawal or name changes**

Cancellation, withdrawal or name changes should be notified before 1 month prior to the congress by e-mail to [erus@congressconsultants.com](mailto:erus@congressconsultants.com)

### **Human experimentation**

Any human experimentation that has been conducted with respect to the submitted abstract(s), should have been conducted according to the protocol approved by the institutional or local committee on ethics in human investigation; or, if no such committee exists, the works should have been conducted in accordance with the principles of the Declaration of Helsinki of World Medical Association.

### **Trials in progress**

Trials in progress abstracts are welcome for submission, the trial needs to be ongoing; ie. the first patient should already been recruited

### **Encore abstracts**

Only original (not previously presented) abstracts are accepted for ERUS (unless the data significantly changed; e.g. larger patient database)

### **Embargo**

Full bodies of the abstracts will be online as of the first congress day and are under embargo until that day. Please respect this embargo policy.

### **Additional rules related to Video Submission only**

- Make sure to follow the general submission rules mentioned above.
- Note that video abstracts should not be narrated slides. If submitted in this format, it cannot be guaranteed that your submission will be reviewed correctly, and it might be rejected because of format issues.
- Videos should be self-explanatory, by voice-over (English), clear text and/or graphics and music (identification of institution, surgeons etc. is not allowed).
- Each video submission should be accompanied by an abstract. Abstracts, as well as the video files, can only be submitted online.
- All videos submitted must be in the final format. Hence, they must include the exact title, all author's names, institutions and commercial companies (when funded) at the start (first 30 sec.) of your video. Marking and/or logo's throughout the video are NOT allowed. Videos which do not take this rule into consideration will be rejected for further consideration and review, regardless of the quality of the content.
- Size and format: All formats are accepted, however, MP4 is the preferred format. Maximum file size 1Gb. Submission of 3D videos is not allowed and will not be considered.
- All submitted videos will be reviewed initially for audio/visual clarity and quality.
- Submission via e-mail after the deadline is not possible.
- Please wait with closing your submission until the video upload is done (indicated on the submission page).
- In the exceptional case that online submission is not possible you can send the video file by a down- and upload service like <https://www.wetransfer.com> to [erus@congressconsultants.com](mailto:erus@congressconsultants.com). Please indicate the abstract ID number in your message.

### **Length of the Video**

The video can have a maximum length of 7 minutes.

### **Recommended requirements for video upload**

- Resolution HD ( 1280x720 pixels ) or higher
- Frame rate higher than 25fps.
- Pixel aspect 16:9
- Bitrate higher than 6Mbps.
- Audio stream: Stereo, 48000 Hz or better ( AAC, DTS, Dolby 5.1 )
- Video container: MPEG-4 ( MP4 or MKV )
- For tips on how to export a video from editing software, visit Vimeo's reference guide for exporting sequences from various different software vendors at <https://vimeo.com/help/compres...>

- Vimeo might have some performance issues close to submission deadline. If so, you can send the video to [erus@congressconsultants.com](mailto:erus@congressconsultants.com) using [wetransfer.com](https://wetransfer.com). Please mention the abstract ID number when uploading.
