Hygiene-Guidelines of Messe Düsseldorf

FEEL SAFE.

Enough room for everyone. With more than 300,000 m² of exhibition space, capacity limits on number of people, spacious entrance and waiting areas, wide aisles, marked paths similar to road traffic, distance markings and attentive staff.

Effective infection protection. Sanitiser dispensers located in our entrances, halls, hall transitions and toilet facilities are ready for frequent use. And highly exposed surfaces are regularly cleaned and disinfected for you.

Fresh air quality in the halls. Thanks to high-performance air-handling systems across the entire exhibition premises and – where needed – with natural air flow inside the halls.

First aid. Our medical service at every trade fair. Highly skilled – and always ready to assist. At entrance North A, Phone: +49 211 4560 111. If you should show cold symptoms, please stay at home for the protection of the community.

PLAY YOUR PART TOO.

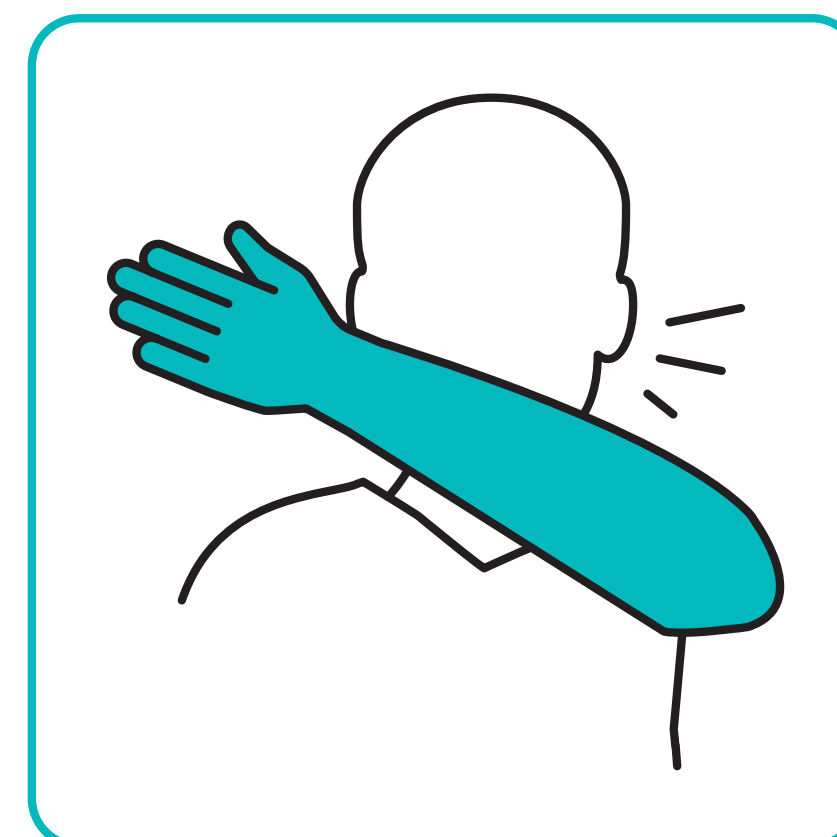

Networking without physical contact. Even though you might be delighted at seeing other people again or closing a successful business deal – please forego shaking hands and physical contact.

For everyone's protection: Please wear a medical mask, FFP2 or KN95/N95 mask (no visors or fabric masks). And although you might not be able to see it, we are smiling at you behind our masks.

By far the best idea. Though we ask you to maintain a minimum distance of 1.5 metres from other trade fair participants, you will still see the latest trends up close and personal.

“Bless you.” – for the sake of yourself and others, please sneeze or cough into the crook of your arm. Even better, do so while maintaining a great distance or turning away from other persons.
