

# Scientific Programme Thursday 11 November, 2021

Junior ERUS-YAU Meeting - Room 28

08:25 – 13:00

*Actual programme might be subject to change due to live surgery*

**08:25 – 08:30**    **Welcome and introduction**

A. Larcher, Milan (IT)

**08:30 – 09:10**    **Session I: Improving education in robot-assisted surgery**

Moderators:    S. Goonewardene, London (UK)  
                    A. Martini, Milan (IT)

**08:30 - 08:40**    **The novel ERUS training paradigm: proficiency-based progression training**

R. De Groote, Aalst (BE)

**08:40 - 08:50**    **Guidelines for preparing educational videos for robot-assisted surgery**

F. Turri, Pisa (IT)

**08:50 - 09:00**    **3D anatomical models-based robotic surgery: State of the art**

A. Bellin, Turin (IT)

**09:00 - 09:10**    **Discussion**

**09:10 – 10:00**    **Session II: Oops, I did it again: semi live example of crisis management during or after robot assisted surgery\***

Moderators:    N. Grivas, Ioannina (GR)  
                    G. De Naeyer, Aalst (BE)

**09:10 - 09:20**    **Losing your way during bladder neck dissection in RARP**

F. Turri, Pisa (IT)

**09:20 - 09:30**    **Intraoperative complications during RARC**

N. Liakos, Gronau (DE)

**09:30 - 09:40**    **Hydronephrosis after RAPN**

A. Larcher, Milan (IT)

**09:40 - 09:50**    **How to avoid complications during ePLND? Anatomical tips and tricks to standardize the procedure**

R. De Groote, Aalst (BE)

**09:50 - 10:00**    **Discussion**

**10:00 – 10:30**    **Coffee break & poster viewing**

**10:30 – 11:30**    **Session III: Improving research in robot-assisted surgery**

Moderators:    P. Dell'Oglio, Milan (IT)  
                    A. Larcher, Milan (IT)

**10:30 - 10:40**    **How to prepare a successful grant application for your research question? Applicant's point of view**

A. Martini, Milan (IT)

- 10:40 - 10:50**    **How to prepare a successful grant application for your research question? Referee's point of view**  
J. Wong, Sunnyvale (US)
- 10:50 - 11:00**    **Current strategies to prevent positive surgical margins during RARP**  
S. Goonewardene, London (UK)
- 11:00 - 11:10**    **The role of confocal microscopy for real-time evaluation of surgical margins during RARP**  
C. Sighinolfi, Modena (IT)
- 11:10 - 11:20**    **Oncological outcomes of sentinel node biopsy and lymph node dissection during RARP**  
N. Grivas, Ioannina (GR)
- 11:20 - 11:30**    **Discussion**
- 11:30 – 12:10**    **Session IV: New frontiers in robot assisted surgery**  
Moderators:    R. De Groote, Aalst (BE)  
                      F. Turri, Pisa (IT)
- 11:30 - 11:40**    **Single-site RARP: step by step description and clinical outcomes**  
M. Moschovas, Celebrity (US) (pre-recorded)
- 11:40 - 11:50**    **Robot-assisted kidney transplantation: step by step description and clinical outcomes**  
K. Decaestecker, Ghent (BE)
- 11:50 - 12:00**    **RARP in oligometastatic prostate cancer: where do we stand?**  
P. Sooriakumaran, London (GB)
- 12:00 - 12:10**    **Discussion**
- 15:15 – 16:00**    **Session V: Evidence for robot assisted surgery**  
Moderators:    A. Larcher, Milan (IT)
- 12:10 - 12:20**    **Best papers of 2020 - Prostate cancer**  
S. Knipper, Hamburg (DE)
- 12:20 - 12:30**    **Best papers of 2020 - Bladder cancer**  
A. Martini, Milan (IT)
- 12:30 - 12:40**    **Best papers of 2020 - Kidney cancer**  
Z. Khene, Rennes (FR)
- 12:40 - 12:50**    **Discussion**
- 12:50 – 12:55**    **Session VI: Best poster & best video award**  
Moderators:    A. Larcher, Milan (IT)
- 12:55 – 13:00**    **Take home messages and adjourn**  
A. Larcher, Milan (IT)
