

**ERUS 13-15 September 2023, Florence (IT)****ESU Course 4: Advanced robotic reconstructive urology**  
**Thursday 14 September 2023, 14:00-16:30 hrs****Faculty**

H. John, Winterthur (CH) – chair  
G. Mattioli, Genoa (IT)  
TBD

**Aims and objectives**

Reconstructive and Re-do robotic urology is a rapidly evolving field. Growing experience and new technology allow to reconstruct lower and upper urinary tract more and more by minimal invasive robotic technology with good functional outcomes. This has a major impact as most of these patients had previous surgeries.

**14.00 – 14.05 Introduction**

H. John, Winterthur (CH)

**Upper Urinary Tract****14.05 – 14.20 Pyeloplasty in children**

G. Mattioli, Genoa (IT)

**14.20 – 14.35 Ureteral reimplantation after cystectomy**

H. John, Winterthur (CH)

**14.35 – 14.50 Buccal mucosa ureteroplasty**

TBD

**14.50 – 15.05 Ureteral reimplantation in children**

G. Mattioli, Genoa (IT)

**15.05 – 15.20 Ileal ureteral replacement**

H. John, Winterthur (CH)

**Lower Urinary Tract****15.20 – 15.35 Extraperitoneal extravesical simple prostatectomy**

H. John, Winterthur (CH)

**15.35 – 15.50 YV-bladder neck plasty**

H. John, Winterthur (CH)

**15.50– 16.05 Prolapse surgery**

TBD

**16.05 – 16.20 Vesico-vaginal and recto-vaginal fistula**

H. John, Winterthur (CH)

**16.20 - 16.30 Discussion and conclusion**
