Nursing & Live  
Surgery

erus you ean esu ean European Association of Urology

## Preliminary Scientific Programme

### Wednesday 10 September 2025

Room: Park Suites 6-7

**08:45 – 08:50**

#### **Welcome**

A. Mohammed, London (GB)

**08:50 - 10:15**

#### **Session 1: Elevating the patient experience ultimately leads to better patient outcomes**

Moderator: A. Mohammed, London (GB)

**08:50 - 09:15**

#### **Peri-operative imaging study in RALP – Update**

M. Van Tol, Amsterdam (NL)

**09:15 - 09:40**

#### **The Swedish approach to training a multi-disciplinary robotic team in the OR**

J. Widlert, Stockholm (SE)

E. Rundin, Stockholm (SE)

**09:40 - 09:55**

#### **Navigating the complexities: Overcoming the challenges utilising multi-robotic platforms – An assistant's perspective**

A. Must, Seattle (US)

**09:55 - 10:15**

#### **Implementing a robotic transplant programme – Challenge accepted**

M. Laftsidis, London (GB)

**10:15 - 10:45**

#### **Coffee Break**

**10:45 - 12:45**

#### **Session 2: Education and training – Is it the key to a high fidelity, multi-disciplinary team – Creating an environment to foster better practitioners in robotic surgery**

Moderator: J. Remmé, Amsterdam (NL)

**10:45 - 11:15**

#### **A Delphi study on robotic training for theatre staff**

T. Shakir, London (GB)

**11:15 - 11:45**

#### **The role of workplace robotic training – Is a framework of safety sufficient for staff training?**

C. Civilli, Manchester (GB)

**11:45 - 12:15**

#### **Creating a bespoke educational robotic course for OR theatre staff – A fundamental approach**

P. Nwangwu, London (GB)

- 12:15 - 12:45**                    **Introduction of emergency simulation robotic training – A team-based approach**  
M. Marchetti, London (GB)
- 12:45 - 13:15**                    **Lunch break**
- 13:15 - 16:00**                    **Session 3: Advancements in robotic surgery: Improvements in best practice and patient focused care.**  
Moderator: M. Marchetti, London (GB)
- 13:15 - 13:40**                    **Patient positioning – Integral to achieving successful robotic surgery**  
J. Remmé, Amsterdam (NL)
- 13:40 - 14:00**                    **Is robotic surgery only about cancer? Innovative reconstructive surgery**  
H. Omana, Abu Dhabi (AE)
- 14:00 - 14:25**                    **Improving the patient pathway – Day case pyeloplasty – The way forward**  
P. Patki, London (GB)
- 14:25 - 14:50**                    **Low intra-abdominal pressure – Beneficial to patient recovery?**  
N. Vasdev, Stevenage (GB)
- 14:50 - 16:00**                    **Case based panel discussion – Legal implications of being a bedside assistant – Differences in scope of practice and guidelines within the United Kingdom and Europe**
- Panel members:**            C. Civilli, Manchester (GB)  
   J. Remmé, Amsterdam (NL)  
   J.P. Noël, London (GB)  
   J. Widlert, Stockholm (SE)  
   C. So, London (GB)  
   Z. Tandogdu, London (GB)
- 16:00 – 16:20**                    **Poster presentations**
- 1st prize Best Poster Abstract
  - 1st prize Best Video Abstract
- 16:20**                                **Closing remarks**  
A. Mohammed, London (GB)  
M. Marchetti, London (GB)
